

## Safety Data Sheet

### AcoustiTECH AD-844 MS

Safety Data Sheet dated: 06/10/2021 - version 5

Date of first edition: 05/16/2017

## 1. Identification

### Product identifier

Mixture identification:

Trade name: AcoustiTECH AD-844 MS

Other means of identification

Trade code: 9019477.FIT

### Recommended use and restrictions on use

Recommended use: Adhesive

Restrictions on use: N.A.

### Supplier's details

Company: AcoustiTECH Innovation Inc.

150, Léon-Vachon Street

G0S 2W0 - St-Lambert-de-Lauzon - Quebec - CAN

Phone: 1-888-434-9317

### Emergency phone number

CANUTEC (613) 966-6666

## 2. Hazard identification

### Classification of the product

Skin Sens. 1 May cause an allergic skin reaction.

### Label elements

#### Pictograms and Signal Words

Warning

### Hazard statements

H317 May cause an allergic skin reaction.

### Precautionary statements

P201 Obtain special instructions before use.  
P202 Do not handle until all safety precautions have been read and understood.  
P261 Avoid breathing dust or mist.  
P272 Contaminated work clothing must not be allowed out of the workplace.  
P280 Wear protective gloves/protective clothing/eye protection/face protection.  
P302+P352 IF ON SKIN: Wash with plenty of water.  
P308+P313 IF exposed or concerned: Get medical advice/attention.  
P321 Specific treatment (see supplementary instructions on this label)  
P333+P313 If skin irritation or rash occurs: Get medical advice/attention.  
P362+P364 Take off contaminated clothing and wash it before reuse.  
P405 Store locked up.  
P501 Dispose of contents/container in accordance with applicable regulations.

### Other hazards

None

### Ingredient(s) with unknown acute toxicity

None

This product contains crystalline silica (quartz sand). IARC has classified crystalline silica as a Group 1 carcinogen. Both IARC and NTP consider silica as a known human carcinogen. Evidence is based on the chronic and long-term exposure workers have had to respirable sized crystalline silica dust particles. Because this product is in liquid or paste form, it does not pose a dust hazard; therefore, this classification is not relevant. (Note: sanding of the hardened product may create a silica dust hazard)

---

### 3. Composition/information on ingredients

#### Substances

N.A.

#### Mixtures

Hazardous components within the meaning of WHMIS 2015 and related classification:

##### List of components

| Qty        | Name                                                                                                             | Ident. Numb.   | Classification                                                     | Registration Number |
|------------|------------------------------------------------------------------------------------------------------------------|----------------|--------------------------------------------------------------------|---------------------|
| 1-2.5 %    | silica sand; quartz                                                                                              | CAS:14808-60-7 | STOT RE 1, H372; Carc. 1A, H350                                    |                     |
| 1-2.5 %    | vinyltrimethoxysilane;<br>Trimethoxyvinylsilane                                                                  | CAS:2768-02-7  | Flam. Liq. 3, H226; Acute Tox. 4, H332                             |                     |
| 0.1-0.25 % | bis(1,2,2,6,6-pentamethyl-4-piperidyl) sebacate; Decanedioic acid, bis(1,2,2,6,6-pentamethyl-4-piperidiny) ester | CAS:41556-26-7 | Skin Sens. 1, H317; Aquatic Acute 1, H400; Aquatic Chronic 1, H410 |                     |

The actual concentration of the components listed above is withheld as a trade secret.

---

### 4. First-aid measures

#### Description of necessary first-aid measures

In case of skin contact:

Immediately take off all contaminated clothing.

Remove contaminated clothing immediately and dispose of safely.

In case of eyes contact:

Wash immediately with water.

In case of Ingestion:

Do not induce vomiting, get medical attention showing the SDS and the hazard label.

In case of Inhalation:

Remove casualty to fresh air and keep warm and at rest.

#### Most important symptoms/effects, acute and delayed

N.A.

#### Indication of immediate medical attention and special treatment needed, if necessary

In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible).

Treatment:

(see paragraph 4.1)

---

### 5. Fire-fighting measures

#### Suitable and unsuitable extinguishing media

Suitable extinguishing media:

Water.

Carbon dioxide (CO<sub>2</sub>).

Unsuitable extinguishing media:

None in particular.

#### Specific hazards arising from the hazardous product

Do not inhale explosion and combustion gases.

Burning produces heavy smoke.

Hazardous combustion products: N.A.

Explosive properties: N.A.

Oxidizing properties: N.A.

#### Special protective equipment and precautions for fire-fighters

Use suitable breathing apparatus.

Collect contaminated fire extinguishing water separately. This must not be discharged into drains.

Move undamaged containers from immediate hazard area if it can be done safely.

---

### 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

Wear personal protection equipment.

Remove persons to safety.

Do not allow to enter into soil/subsoil. Do not allow to enter into surface water or drains.

Limit leakages with earth or sand.

## Methods and material for containment and cleaning up

Suitable material for taking up: absorbing material, organic, sand  
Retain contaminated washing water and dispose it.

---

## 7. Handling and storage

### Precautions for safe handling

Avoid contact with skin and eyes, inhalation of vapours and mists.  
Exercise the greatest care when handling or opening the container.  
Don't use empty container before they have been cleaned.  
Before making transfer operations, assure that there aren't any incompatible material residuals in the containers.  
Contaminated clothing should be changed before entering eating areas.  
Do not eat or drink while working.  
See also section 8 for recommended protective equipment.

### Conditions for safe storage, including any incompatibilities

Storage temperature: N.A.

Keep away from food, drink and feed.

Incompatible materials:

None in particular.

Instructions as regards storage premises:

Adequately ventilated premises.

---

## 8. Exposure controls/personal protection

### Control parameters

#### Community Occupational Exposure Limits (OEL)

| Component           | OEL Type | Country | Ceiling | Long Term<br>mg/m <sup>3</sup> | Long Term<br>ppm | Short Term<br>mg/m <sup>3</sup> | Short Term<br>ppm | Behaviour | Notes                                                           |
|---------------------|----------|---------|---------|--------------------------------|------------------|---------------------------------|-------------------|-----------|-----------------------------------------------------------------|
| silica sand; quartz | ACGIH    |         |         | 0,025                          |                  |                                 |                   |           | A2 - Suspected Human Carcinogen;lung cancer;pulmonary fibrosis; |

### Appropriate engineering controls

N.A.

### Individual protection measures, such as personal protective equipment (PPE)

Eye protection:

Use close fitting safety goggles, don't use eye lens.

Protection for skin:

Use clothing that provides comprehensive protection to the skin, e.g. cotton, rubber, PVC or viton.

Protection for hands:

Suitable materials for safety gloves; 29 CFR 1910.138 - ANSI/ISEA 105:

Polychloroprene - CR: thickness  $\geq 0,5\text{mm}$ ; breakthrough time  $\geq 480\text{min}$ .

Nitrile rubber - NBR: thickness  $\geq 0,35\text{mm}$ ; breakthrough time  $\geq 480\text{min}$ .

Butyl rubber - IIR: thickness  $\geq 0,5\text{mm}$ ; breakthrough time  $\geq 480\text{min}$ .

Fluorinated rubber - FKM: thickness  $\geq 0,4\text{mm}$ ; breakthrough time  $\geq 480\text{min}$ .

Use impervious gloves that provides comprehensive protection, e.g. P.V.C., neoprene or rubber.

Respiratory protection:

Respiratory protection must be used where exposure levels exceed workplace exposure limits. Refer to 29 CFR 1910.134 - CSA Z94.4 for information on selection and use of appropriate respiratory protection equipment.

N.A.

---

## 9. Physical and chemical properties

### Information on basic physical and chemical properties

Physical state: Liquid

Appearance and colour: paste Beige

Odour: Characteristic

Odour threshold: No data available

pH: No data available

Melting point / freezing point: No data available

Initial boiling point and boiling range: No data available

Flash point: 100 °C (212 °F)

Evaporation rate: No data available

Upper/lower flammability or explosive limits: No data available

Vapour density: No data available  
Vapour pressure: No data available  
Relative density: 1.55 g/cm<sup>3</sup>  
Solubility in water: Insoluble  
Solubility in oil: No data available  
Partition coefficient (n-octanol/water): No data available  
Auto-ignition temperature: No data available  
Decomposition temperature: No data available  
Viscosity: No data available  
Explosive properties: No data available  
Oxidizing properties: No data available  
Solid/gas flammability: No data available

#### Other information

Substance Groups relevant properties No data available  
Miscibility: No data available  
Fat Solubility: No data available  
Conductivity: No data available

---

## 10. Stability and reactivity

### Reactivity

Stable under normal conditions

### Chemical stability

Data not available.

### Possibility of hazardous reactions

None.

### Conditions to avoid

Stable under normal conditions.

### Incompatible materials

None in particular.

### Hazardous decomposition products

None.

---

## 11. Toxicological information

### Information on toxicological effects

#### Toxicological Information of the Preparation

There is no toxicological data available on the mixture. Consider the individual concentration of each component to assess toxicological effects resulting from exposure to the mixture.

#### Toxicological information on main components of the mixture:

|                     |                   |                           |
|---------------------|-------------------|---------------------------|
| silica sand; quartz | a) acute toxicity | LD50 Oral Rat = 500 mg/kg |
|---------------------|-------------------|---------------------------|

|                                                 |                   |                            |
|-------------------------------------------------|-------------------|----------------------------|
| vinyltrimethoxysilane;<br>Trimethoxyvinylsilane | a) acute toxicity | LD50 Oral Rat = 7340 µL/kg |
|-------------------------------------------------|-------------------|----------------------------|

|                                                                                                                      |                   |                            |
|----------------------------------------------------------------------------------------------------------------------|-------------------|----------------------------|
| bis(1,2,2,6,6-pentamethyl-4-piperidyl) sebacate; Decanedioic acid, bis(1,2,2,6,6-pentamethyl-4-piperidinyloxy) ester | a) acute toxicity | LD50 Oral Rat = 2615 mg/kg |
|----------------------------------------------------------------------------------------------------------------------|-------------------|----------------------------|

**If not differently specified, the information required in the regulation and listed below must be considered as N.A.**

- a) acute toxicity
- b) skin corrosion/irritation
- c) serious eye damage/irritation
- d) respiratory or skin sensitisation
- e) germ cell mutagenicity
- f) carcinogenicity
- g) reproductive toxicity

h) STOT-single exposure

Toxicological kinetics, metabolism  
and distribution information

i) STOT-repeated exposure

j) aspiration hazard

**Substance(s) listed on the IARC Monographs:**

silica sand; quartz                      Group 1

**Substance(s) listed as OSHA Carcinogen(s):**

silica sand; quartz

**Substance(s) listed as NIOSH Carcinogen(s):**

silica sand; quartz

**Substance(s) listed on the NTP report on Carcinogens:**

silica sand; quartz

---

## 12. Ecological information

### Ecotoxicity

Adopt good working practices, so that the product is not released into the environment.

### List of Eco-Toxicological properties of the components

| Component                                                                                                                   | Ident. Numb.    | Ecotox Data                                                                      |
|-----------------------------------------------------------------------------------------------------------------------------|-----------------|----------------------------------------------------------------------------------|
| silica sand; quartz                                                                                                         | CAS: 14808-60-7 | a) Aquatic acute toxicity : LC50 carp > 10000,00000 mg/L 72h                     |
| vinyltrimethoxysilane;<br>Trimethoxyvinylsilane                                                                             | CAS: 2768-02-7  | a) Aquatic acute toxicity : LC50 Fish Oncorhynchus mykiss = 191 mg/L 96h<br>ECHA |
| bis(1,2,2,6,6-pentamethyl-4-<br>piperidyl) sebacate; Decanedioic<br>acid, bis(1,2,2,6,6-pentamethyl-4-<br>piperidiny) ester | CAS: 41556-26-7 | a) Aquatic acute toxicity : LC50 Fish Lepomis macrochirus = 0,97 mg/L 96h        |

### Persistence and degradability

## 13. Disposal considerations

### Safe handling and methods for disposal

The generation of waste should be avoided or minimized wherever possible. Recover if possible.

#### Methods of disposal:

Disposal of this product, solutions, packaging and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor.

Do not dispose of waste into sewers.

#### Disposal considerations:

Do not allow to enter drains or watercourses.

Dispose of product according to all federal, state and local applicable regulations.

If this product is mixed with other wastes, the original waste product code may no longer apply and the appropriate code should be assigned.

Dispose of containers contaminated by the product in accordance with local or national legal provisions. For further information, contact your local waste authority.

#### Special precautions:

This material and its container must be disposed of in a safe way. Care should be taken when handling untreated empty containers.

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Empty containers or liners may retain some product residues. Do not re-use empty containers.

14. Transport information

Not classified as dangerous in the meaning of transport regulations.
