

Safety Data Sheet

SURFACE Cleaner

Section 1. Chemical product and company identifications

Common name: SURFACE Cleaner

Product code: 60242

Chemical family: Cleaner

CAS: Mixture

Synonyms: Not applicable

Supplier / Manufacturer:

Finitec Hardwood Products Inc.

150, Leon-Vachon

Saint-Lambert-de-Lauzon (Quebec)

Canada GOS 2W0

Phone: (418) 889-9910

Fax: (418) 889-9915

In case of emergency:

CANUTEC: (613) 996-6666

Or contact your local poison control center.

Section 2. Hazards identifications

Physical state: Liquid

Warning: The product can cause moderate eye irritation and mild to moderate skin irritation, especially if sensitivity. The product may be harmful if swallowed.

Routes of entry: Eyes, skin, ingestion.

Potential acute effects

- **Eyes:** The product can cause moderate eye irritation, such as redness, tingling, burning and swelling.
- **Skin:** The product may cause slight irritation to the skin if skin sensitivity such as redness and itching.
- **Inhalation:** The product can cause irritation to the respiratory tract in case of respiratory sensitivity.
- **Ingestion:** If ingested, product may cause irritation to the gastrointestinal tract. Harmful if swallowed in large quantities.

Potential chronic effects: See *Toxicological Information (section 11)*.

Section 3. Composition and information on ingredients

<u>Name</u>	<u>CAS</u>	<u>Concentration %</u>
Water	7732-18-5	>90
Linear alcohol (C12-C15) ethoxylate	68131-39-5	0.5 to 1
Sodium citrate dehydrate	Proprietary	0.1 to 0.5
Alkylpolyglycoside C8-10	68515-73-1	0.1 to 0.5

Product contains components in concentrations lower than disclosure requirements.

Section 4. First aid measures

Eye contact: Flush eyes with running water for at least 15 minutes, keeping eyelids open immediately. Take care not to contaminate unaffected areas. Consult a doctor immediately.

Skin contact: Wash the affected area with soap and water and rinse immediately with plenty of running water. Get medical attention if irritation symptoms arise.

Inhalation: If symptoms of respiratory irritation arise following inhalation of the product, move the victim to fresh air. If symptoms persist or worsen, contact emergency services immediately.

Ingestion: In cases of ingestion of large amounts of product, DO NOT induce vomiting. Consult a doctor immediately.

Note: For any situation where the victim should consult a doctor or emergency services should go to the scene of incident to an intervention or medical transportation, make sure you give a copy of this MSDS with the victim if his health permits, an accompanying person or emergency services so that it is readily available for emergency physicians and / or physicians.

Section 5. Fire fighting measures

Flammability of the product: Not flammable

Lower limit of flammability: Not available

Upper limit of flammability: Not available

Flammability temperature: Not available

Flash point: Not available

Products of combustion: Carbon dioxide (CO₂), Carbon monoxide (CO), Nitrogen oxide, Halogenated compounds.

Fire hazards in presence of various substances: Data not available

Fire fighting media and instructions: Extinguishing media such as water fog, carbon dioxide or alcohol resistant foam. Do not use water spray as it will spread fire.

Section 6. Accidental release measures

Personal precautions: Wear appropriate clothing and protective equipment when cleaning liquid chemicals.

Environmental precautions: Prevent infiltration into drains, sewers and water courses.

Methods for cleaning up: Absorb spill with inert absorbent and non-combustible materials, such as universal absorbents or vermiculite. Transfer absorbed substance in a suitable container for disposal in accordance with federal, provincial and local laws.

Section 7. Handling and storage

Handling: Wear all personal protective equipment according to the task. Properly apply the professional and personal hygiene procedures such as washing hands before eating. Prohibit eating, drinking and smoking in contaminated areas. Use safety procedures to avoid accidents.

Storage: It is recommended to store the product at room temperature. Keep out of reach of children.

Section 8. Exposure Controls, Personal Protections

Engineering controls: Ensure adequate ventilation and good air output to keep contaminant concentrations below the permissible exposure limits.

Eyes: Wear safety glasses with side shields.

Respiratory: During routine operations, respiratory protection is not required. If exposure limits are exceeded, wear appropriate respiratory protection.

Hands: Wear chemical resistant gloves.

Skin/body: Standard work clothing.

Other: Eyewash and emergency shower must be available on site.

Section 9. Physical and chemical properties

Molecular mass: Data not available

Physical status: Liquid

Appearance: Clear

Odour: Frosty flowers

Threshold odour: Data not available

Density at 25°C (g/mL): 1.00 ± 0.02

Freezing point: Data not available

Boiling point: Data not available

Vapour tension: Data not available

Density of vapour: Data not available

Coefficient of division (water/oil): Data not available

Water solubility (Air=1): Miscible in water

Rate of evaporation: Data not available

Volatility: Data not available

pH: 7.0± 0.2

Section 10. Stability and reactivity

Stability and reactivity: Stable

Incompatibility: Oxidizing agents, strong acids, halogens, bases, peroxides,

Hazardous decomposition products: Thermal decomposition products such as carbon dioxide (CO₂), carbon monoxide (CO), and trace of component elements.

Conditions to avoid: High temperatures, heat, open flames and contact with incompatible materials.

Hazardous polymerization: Will not occur

Section 11. Toxicological information

Information on ingredients:

<u>Name</u>	<u>CAS</u>	<u>LD₅₀</u>	<u>LC₅₀</u>
Linear alcohol (C12-C15) ethoxylate	68131-39-5	Rabbit (dermal): 2000 mg/kg Rat (oral): 1650-2000 mg/kg	N/A

Routes of entry: Eyes, skin, ingestion.

Potential acute effects

- **Eyes:** The product can cause moderate eye irritation, such as redness, tingling, burning and swelling.
- **Skin:** The product may cause slight irritation to the skin if skin sensitivity such as redness and itching.
- **Inhalation:** The product can cause irritation to the respiratory tract in case of respiratory sensitivity.
- **Ingestion:** If ingested, product may cause irritation to the gastrointestinal tract. Harmful if swallowed in large quantities.

Potential chronic effects: No data available

Section 12. Ecological information

Ecological data:

<u>Name</u>	<u>Results</u>	<u>Species</u>	<u>Period</u>
Linear alcohol (C12-C15) ethoxylate	EC ₅₀ : 10-100 mg/L	Algae	72 hrs
	EC ₅₀ : 5-10 mg/L	Daphnia	48 hrs
	LC ₅₀ : 5-10 mg/L	Fish	96 hrs

Effects on environment: Certain ingredients are toxic to aquatic life with long lasting effects.

Environmental precautions: For spills involving a large amount of the product, prevent infiltration of material into drains, sewers and water courses.

Breakdown products: No data available

Toxicity of the biological breakdown products: No data available

Section 13. Disposal considerations

Waste disposal: Dispose of this product in accordance with federal, provincial and local laws.

Section 14. Transportation information

Classification DOT/ IMDG/IATA label: Not regulated as dangerous good

Section 15. Regulatory information

GHS (Globally Harmonized System of Classification and Labelling of Chemicals):

Acute toxicity (category 5)

Chronic toxicity to aquatic life (category 5)

Hazard statements:

H315 - Causes skin irritation.

H319 - Causes serious eye irritation.

H335 - May cause respiratory irritation.

H401 - Toxic to aquatic life

Precautionary statements

P102 - Keep out of reach of children.

P264 - Wash hands and skin thoroughly after handling.

P270 - Do not eat, drink or smoke when using this product.

P273: Avoid release to the environment

P281 - Use personal protective equipment as required.

P302+P352 - IF ON SKIN: Wash with plenty of soap and water.

P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

UNITED STATES:

NFPA rating

Health: 0
Flammable: 0
Reactivity: 0
Special conditions: 0

Legend: 4: Severe, 3: High, 2: Moderate, 1: Slightly, 0: Not hazardous

REACH (EU):

ESIS - European chemical Substances Information System : Composite

REACH - Registration, Evaluation, Authorisation and Restriction of Chemical substances : Composite

List of Registered Substances Phase-in :

Registered like:

EC No.	CAS RN	Substance name	Full	OSII	TII
500-002-6	68131-39-5	Linear alcohol (C12-C15) ethoxylate	Yes	-	-
500-220-1	68515-73-1	Alkylpolyglycoside C8-10	Yes	-	-

Full Indicates registration under REACH Article 10 as a full folder.

OSII Indicates registration under REACH Article 17 as an isolated intermediate on site (OSII).

TII Indicates registration under REACH Article 18 as a transported isolated intermediate (TII).

'Yes' Indicates the registration of the substance with REACH is complete.

'In Process' Indicates that a file on the substance has been successfully submitted to ECHA and gets treated, NB Compliance monitoring is ongoing (and could be unsuccessful).
