

Instructions

Finish dye

Pour the whole colorant into a 3,64 L bottle of Finitec finish (115 mL per 3,64 L). Shake well in order to obtain homogeneity. Follow finish instructions for application.

NOTES:

- Do not apply finish dye to the first coat of bare wood. The first coat should be a clear varnish, and the subsequent coats can include the finish dye.
- Addition of coats intensifies color. Proceed to a color test using jobsite application conditions and methods.

WARRANTY: Produits de Plancher Finitec Inc. certifies that this product is free from manufacturing defect. Manufacturer's responsibility is limited to the replacement of the product.
