

Finitec

Restoration

Instructions

Wood glue

Shake well before using. Use at a temperature around 20 °C. The surface must be clean and dry. Finitec Wood glue has a spout applicator cap that controls flow in order to ease application. Can also be applied with paint roller or brush. Clean tools with water.

COVERAGE : Based on normal application, coverage is approximately 110 sq.ft. (370 linear feet).

CAUTION : In case of contact with skin, wash immediately with mild and non-abrasive soap. If irritation persists, call a doctor. In case of contact with eyes, rinse immediately with water for at least 15 minutes, keeping eyelids open. If the person is wearing contact lenses, remove them. Do not use eye drops. If irritation persists, call a doctor. In severe cases of inhalation, move affected person in a well-ventilated area. If the victim is not breathing, give artificial respiration. Seek medical attention. If swallowed, do not induce vomiting. If the person is conscious, drink several glasses of water. Nothing by mouth to an unconscious person. Seek medical attention.

KEEP OUT OF REACH OF CHILDREN
